

FIVE INJURED IN PEORIA STRIKE RIOT

LOWDEN SENDS GUARDSMEN TO STRIKE SCENE

Two Men Seriously Hurt—Rioting Continues Late

BULLETIN.
PEORIA, Ill., Aug. 14.—At 12:30 o'clock this (Thursday) morning it was reported that three severe blasts occurred within the plant. The blasts could be heard for several miles, but no flash was visible.
Union officials said they had no knowledge of the explosions or the cause of them. A number of pickets near the plant were attracted by the explosions but the extent of the damage could not be ascertained.

BULLETIN.
ROCKFORD, Ill., Aug. 14.—Company I, Tenth Regiment, Illinois National Guard in charge of Captain J. J. Beattie received orders early this (Thursday) morning to report at Peoria for riot duty.

BULLETIN.
DECATUR, Ill., Aug. 14.—Captain J. Lee Cline, commanding H. company, Illinois national guard, will leave Decatur for Peoria at 4 o'clock this (Thursday) morning with sixty men in a special Illinois Traction System car. The Decatur company is to be joined at Bloomington by the Bloomington company.

PEORIA, Ill., Aug. 13.—Five persons are injured as the result of the first day of rioting at the plant of Keystone Steel and Wire Company at South Bartonville, where steel and wire workers are on strike.

The rioting started at eight o'clock this morning when three truck loads of strikebreakers were taken into the plant, and continued until 10 o'clock tonight. The injured are:

List of Injured.
Reuben Sommer, 19, assistant chemist, son of P. W. Sommer, president of the company, shot in left eye and will lose sight, artery in neck severed, injuries serious.

Alvin Sommer, assistant general superintendent of the company, stray bullet in ear and other minor gunshot wounds. Injuries not serious.

Frank Rudolph of Chicago, a strikebreaker stationed as watchman at the front gate of the plant, shot in back, injuries serious.

An unknown woman attendant at the Illinois State Hospital at Bartonville, hit by stray bullet fired by deputy sheriff, injuries not serious.

Keep Up Fire on Plant.
As darkness began to fall shortly after 8 o'clock tonight the immediate vicinity of the plant was deserted. Ambushed in the bushes and trees on the hillside around the mass of brick buildings, were hundreds of strikers, armed with rifles and shotguns, who kept a continuous hail of lead pouring into the plant.

Returned volleys of shot from within the plant were frequent. Deputies and strikebreakers poked weapons thru windows and fired into the hillside which sheltered the strikers.

The firing continued until 10:30 o'clock when one of the leaders called his men into conference and urged them to remain orderly. He told them the militia was coming.

At 11:30 the plant was still in darkness. There had been no firing for more than an hour.

When informed the state militia had been called out, strike leaders refused to make comment until they held a conference. The conference started shortly before 12 o'clock.

Order Seventh Regiment Out.
The second regiment, seventh battalion Illinois Reserve Militia, stationed here and commanded by Major H. M. Powell has been ordered to the scene of the strike. It was announced at 11:45 o'clock tonight, according to Major Powell himself, and will be at the plant within four hours.

The trouble dates back to eight weeks ago when the employees of the company struck for higher wages and a closed shop. They were granted the wage increase but the company declined to recognize them as a union, the plant being closed down in the meantime.

Scores of shots were fired at 8 o'clock this morning when the three truck loads of strike breakers, numbering 130 men, were taken into the plant at South Bartonville.

Deputy Fires First Shot.
The first shots were fired by a special deputy, one of a force of

Consider Wages EXPECT AID OF DEMOCRATS IN RESERVATIONS

WASHINGTON, Aug. 13.—Wage increases for railroad employees will be considered by the railroad administration immediately after the last of the striking shop men have returned to work, Director General Hines said today. Requests for increases are expected to come from all of the fifteen railroad unions which have not yet presented demands.

Situation Improves.
Chicago, Aug. 13.—Railway officials reported today continued improvement in the railway shop men strike situation in practically every section of the country with the exception of Boston and Chicago where a large majority of the men refuse to return to work.

Return of the shop men in the Atlanta, Ga., district improved the traffic situation thruout the south.

In Chicago several hundred boiler makers employed by the Chicago, Milwaukee and St. Paul road voted to return.

Officers of the Chicago district council of the federated railway shopmen, who called the country wide strike in defiance of the orders of the international representatives of the union received word today from Director Hines that the government would not negotiate any settlement with the local body. Representatives of striking shop men from every section of the country arrived here today to attend the mass meeting to be held tomorrow at which it would be decided what action will be taken in regard to President Wilson's demand that the men return to work immediately and defer a settlement of their wage demands.

Vote to Return.
Decatur, Ill., Aug. 13.—Striking shop men of the Wabash system voted yesterday, 2 to 1, to return to work according to official announcement today. The vote was 1,296 for returning and 648 against.

More than 1,400 shop men and 450 clerks will return to work in Decatur.

FAVORS MUNICIPAL OWNERSHIP OF LINES
WASHINGTON, Aug. 13.—Delos F. Wilcox, New York franchise expert, today told the federal electrical railway commission that municipal ownership is the only solution of the American street railway problem, public control of private lines having broken down.

The street railway problem, he said, narrowed down to four questions "at must be determined: First, whether the investment should be regarded as a speculative one or be guaranteed; second, whether the business was to be conducted primarily for service or for profit; third, whether continuity of service was not to be guaranteed, outlawing suspension thru strike, and fourth, whether public or private agencies should own and operate the roads.

TO CLOSE STOCK EXCHANGE SATURDAY
NEW YORK, Aug. 13.—The board of governors of the New York stock exchange decided today to close the exchange Saturday. This will be the third Saturday this summer that the exchange has suspended operations so that the brokerage houses could catch up with the enormous volume of business. Dealings on the stock exchange so far this year, approximately 185,000,000 shares, or considerably more than double the business for the corresponding period of 1918.

Total trading in bonds to date aggregates almost \$2,000,000,000 par value against \$935,000,000 a year ago.

MEXICO EXPELS 21 FOREIGNERS
EL PASO, Texas, Aug. 13.—Twenty-one foreigners, including Americans, Spaniards, Cubans and citizens of the Argentine republic have been expelled from Mexico recently by order of the Carranza government officials, according to El Dia Espanol, the Spanish paper in Mexico City, under date of August 6. Misconduct while in Mexico was given as the reason.

SETTLE CAR STRIKE
Joliet, Ill., Aug. 13.—Joliet's striking street car men today voted to return to work by a vote of 184 to 6 following a conference held here yesterday with Robert Osborne of the state industrial board. A compromise providing for 12 to 14 cents increase was offered the men last night following the conference and was accepted today.

TRANSPORT COMMANDER DIES
Washington, Aug. 13.—Captain Gay W. Castle, commanding officer of the transport Martha Washington, is dead at Brest, France, the navy department learned today. Captain Castle died on board his ship.

REPUBLICAN GROUP RECEIVES ASSURANCE FROM DEMOCRATS
WASHINGTON, Aug. 13.—(By The Associated Press.)—The trend toward agreement on reservations in the peace treaty reached the stage today where the group of Republican senators advocating reservations received assurances which they accepted as guaranteeing Democratic assent to their program.

Word reached members of the group, it was said, that as soon as they could pledge a score of Republican votes for reservations to the league of nations covenant along the line recently agreed by seven Republican senators the administration forces in the senate would be willing to line up on that basis for ratification of the treaty.

Ranks May Include Lodge
There was an intimation also that the reservationists had reason to believe their ranks would include Senator Lodge, Republican leader of the senate. Twenty Republicans it was declared would be enough with the administration Democrats to make up the two thirds necessary for ratification. The program on which it is sought to unite these elements contemplates reservations to further protect the Monroe Doctrine, to insure domestic control over domestic questions, to amplify the right of withdrawal and to fortify the power of congress to decide questions of peace or war under Article Ten.

It was declared the information that Democrats were in a receptive mood toward such a proposal did not come from Senator Hitchcock of Nebraska, the administration leader, but from a source considered authoritative. The Nebraska senator denied he had taken part in any such negotiations and said his advocacy of unreserved ratification remained unaltered. Mr. Lodge denied he had given assent to the proposed reservations.

Viscount Grey Accepts Post Temporarily
LONDON, Aug. 13.—Viscount Grey, former British secretary of state for foreign affairs, has agreed to represent the British government at Washington pending the appointment of a permanent ambassador.

Lord Grey is consenting to go to Washington temporarily, Andrew Bonar Law, government spokesman said in the house of commons today, in order to deal particularly with questions arising out of the peace settlement.

Include Financial Relations
Washington, Aug. 13.—Questions arising out of the peace settlement which Bonar Law announced in the house of commons today would require the attention of Viscount Grey, the new British ambassador to the United States, are understood to include a readjustment of the complicated financial relations between Great Britain and the United States growing out of loans and credits advanced by America.

There also must be an immediate recasting of many existing treaties between the two countries, necessitated by the radical changes following the war. Many of these conventions date back for more than a century.

Early in the war there were many issues between the state department and the British foreign office growing out of interference with American commerce by British warships and British orders in council and the many claims for damages by American shipowners and merchants pending when the United States entered the war still technically an open.

There has been suggestion that conditions in Mexico were such as to demand consideration on an international basis. Announcement that Viscount Grey was to come to Washington was received with keen gratification by Secretary Lansing and other American officials.

CONSIDER PLAN TO SEIZE HOARDED FOOD
CHICAGO, Aug. 13.—It was learned today that the United States district attorney's office has under consideration a plan to seize all the foodstuffs stored in the city which under the federal food control act may be classified as "hoarded" and offer it for sale to consumers.

The United States bureau of markets has reported that there are thousands of tons of butter, eggs, fish, poultry and meat in Chicago cold storage warehouses, which may come under this classification.

No decision will be reached until District Attorney Charles F. Clyne returns from Washington.

Under the federal laws persons convicted of hoarding food are punished by two years imprisonment, a fine of \$5,000 or both.

The plan under consideration is said to contemplate the seizure of these large quantities of foodstuffs now in the hands of manufacturers, dealers, brokers and speculators and to prosecute the offenders later.

STEAL LIBERTY BONDS FROM BROKERAGE FIRM
NEW YORK, Aug. 13.—Liberty bonds valued at \$223,000 were stolen yesterday from two brokerage firms in the financial district. It was learned from police today that the stolen bonds in each instance had been entrusted to messengers who have disappeared.

Richard Whitney & Co., dispatched a messenger with \$173,000 worth of bonds to Kidder, Peabody & Co., brokers across the street from the Whitney offices. The messenger, a boy, disappeared.

The other thief, was from Simmons & Slade, whose loss totaled \$45,000.

RUSH AID TO ADMIRAL KOLCHAK
WASHINGTON, Aug. 13.—Material aid for Admiral Kolchak's retreating army in Siberia is being rushed to Vladivostok by the American government. It was said officially today that 45,000 rifles and several million rounds of ammunition already had been sent from San Francisco and that additional equipment would go forward this week on an army transport.

DUKE ACCEPTS RUSSIAN THRONE?
LONDON, Aug. 13.—(By The Associated Press.)—A Bolshevik message received here asserts that, after a meeting of Russian monarchists in Siberia the Russian throne was offered to the Duke of Romanowsky, a member of the cadet or younger branch of the Romanoff family headed by former Emperor Nicholas. The dispatch adds that the duke accepted the offer.

Baker Pays Tribute To Marine Brigade
WASHINGTON, Aug. 13.—Tribute to the performance of the marines in France as a new and heroic demonstration of the unconquerable tenacity and dauntless courage of the American soldier was paid by Secretary Baker today in a letter to Acting Secretary Roosevelt of the navy department. The letter was occasioned by the restoration of the marine brigade to the navy department after its service overseas under General Pershing.

The brigade composed of the Fifth and Sixth regiments which played a large part in turning back the German forces at Chateau Thierry and Belleau Wood, was demobilized today at the marine corps camp at Quantico, Va.

Many members of the brigade, which was made up of men from every state left for their homes today.

"I cannot permit this heroic force," wrote Secretary Baker, "to terminate its association with the army without expressing to you and to the officers and men of the marine corps the deep sentiment of the war department and of the army toward it."

"The whole history of the brigade in France is one of conspicuous service, when it was finally incorporated into the second division of the American army it had early an opportunity to give an heroic demonstration of the unconquerable tenacity and dauntless courage of American soldiers."

"From then on the marine brigade and the division of which it was a part fought successfully until victory was obtained for the allied armies. Throughout this long contest the marines, both by their valor and their tragic losses heroically sustained, added an imperishable chapter to the history of America's participation in the war."

Acting Secretary Roosevelt in replying characterized the second divisions composed of marines and regulars as "one of the greatest fighting organizations the world has ever known."

REDUCE PRICES ON ARMY FOODSTUFFS
WASHINGTON, Aug. 13.—To meet reductions recently made by retailers a new scale of prices for surplus foodstuffs was put in effect today by the war department. Roast beef was reduced from \$2.15 to \$1.90 per six pound can; bacon from 35c to 31c per pound and number three cans of beans from 11 to 9 cents. Prices on other items were reduced in proportion.

"The secretary of war," said the announcement, "has approved the policy of revising war department quotations from time to time to keep these prices below those charged by retailers for similar commodities."

URGES REGULATION OF COLD STORAGE
WASHINGTON, Aug. 13.—Federal regulation of cold storage of food was urged in the senate today by Senator McKellar, Democrat of Tennessee, as a certain means of reducing the cost of living and as the only remedy for "the most outrageous piece of profiteering that can be imagined."

Speaking in support of his bill first introduced in 1913 and now re-introduced before the senate interstate commerce sub-committee considering high cost of living recommendations of President Wilson Senator McKellar said if the bill had been passed in 1913, he felt sure the present conditions as to excessive living cost would not exist.

SAY WILSON WILL VETO REPEAL
WASHINGTON, Aug. 13.—President Wilson, it was said today will veto the law proposing repeal of the daylight savings act. The measure has been before the president since August 5, and he is expected to return it to congress before the end of the week.

Efforts to pass the agricultural bill with its repeal rider over the president's veto failed last month and leaders in both the house and the senate doubt that the two thirds majority necessary to pass the repeal law over the president's head can be mustered.

FIND ELECTRICIAN DEAD AT SWITCHBOARD
Mason City, Ia., Aug. 13.—Clay Wheeler of Galesburg, Ill., electrician at the Mason City Drain Tile company's plant here, was found dead at his switch-board at midnight last night by other workmen. It is thought he was killed by a bolt of lightning which is said to have struck the building during a thunder shower.

MINERS REVOLT AGAINST THEIR DISTRICT HEAD
SPRINGFIELD, Ill., Aug. 13.—Two thousand miners of the Springfield sub-district, at a mass meeting here tonight, revolted against Frank L. Farrington, district president, and voted to call a district convention next Tuesday to demand readjustment of the wage scale.

At the tumultuous meeting, which was controlled by the radical members of the unions, President Farrington's counsel was thrown to the winds, the miners agreeing almost unanimously to overrule the head of the district. Farrington had refused to call the convention.

Members also voted to cease work thruout the sub-district immediately and join the striking miners of the Belleville district pending settlement of their demands.

To Meet Tuesday.
Belleville, Ill., Aug. 13.—Delegates claiming to represent 65,000 striking Illinois coal miners, at a meeting today voted to hold a state convention at Springfield August 19 to readjust the present wage scale.

Not to Join Move.
Pana, Ill., Aug. 13.—In response to an appeal from John L. Lewis, acting international president of the United Mine Workers of America, 2,000 miners at a meeting here this morning voted not to join the strike movement to oust Illinois miners' officials.

Will Not Join Strike.
Decatur, Ill., Aug. 13.—Decatur miners will not join in a strike at this time, it was decided in a called meeting of the miners last night.

HUNS TO BUILD MERCANTILE FLEET
BERLIN, Aug. 13.—(By The A. P.)—"We must proceed immediately to create a mercantile fleet and help Germans abroad with state advances," said Matthias Erzberger, vice premier and minister of finance of the German government, speaking before the national assembly at Weimar yesterday. He promised the assembly that a bill carrying out these projects would be presented in a few weeks.

Herr Erzberger added that the loan situation must be given consideration, declaring that the German nation must raise \$25,000,000,000 marks yearly in taxes in order to regain a healthy condition.

ONE DEAD; TWO HURT IN AUTO ACCIDENT
PEORIA, Ill., Aug. 13.—One person was killed and two others seriously injured when an automobile in which they were riding crashed into a telephone pole in the residential district at 7 o'clock this evening.

The dead: Lud O'Leen, manager collection and rating bureau, Peoria.

The injured: Walter Williamson, deputy United States marshal, Peoria; William Ebinger, American Telephone & Telegraph Company, Peoria.

FIND WOMAN WITH THROAT CUT
CHICAGO, Aug. 13.—A woman was murdered last night in the suburb of Evanston, believed from a card found in her handbag to be Mrs. E. L. Watkins. Her throat was cut several times and cuts on the hands indicated she had fought with her assailant. Residents along University avenue in the college town heard screams and telephoned the police. The woman was richly dressed and her purse containing a sum of money was found near the body.

SECURE VALUABLES IN RUSSIA FOR LIQUOR
LONDON, July 31.—(Correspondence of the Associated Press.)—Three silver fox skins for which \$2,500 has been received in London were obtained in Arhangelsk for six bottles of whiskey by a British officer who has just returned from northern Russia. Another officer traded a case of Champagne for a diamond necklace said to be worth thousands of dollars. Returning soldiers say any possession a native has may be obtained with intoxicants.

CONFISCATE \$10,000 WORTH OF LIQUOR
Cleveland, O., Aug. 13.—Nine men were arrested and \$10,000 worth of liquor confiscated today when John Sawkin, special agent of the department of justice halted two trucks near Youngstown which were carrying the liquor into Ohio from Pennsylvania.

CAR SHORTAGE BEING FELT
Washington, Aug. 13.—Car shortage is beginning to be felt Director General Hines said today as the railroad business picks up with the advance of the season and the movement of crops. Mr. Hines believes the operating deficit this month will be very small.

Tells Attorney To Ask Woman Who Gave Poison
MACOMB, Ill., Aug. 13.—Dr. C. W. Alverson, held with Mrs. Alice Clugston on the charge of murdering her husband, Lawrence told State's Attorney Hainline and Sheriff Wilson today to "ask the woman" after he had declared he did not know how the poison and ground glass found in Clugston's vital organs had been administered. The physician was asked if he administered arsenic while Clugston was ill and he said "no."

"You ask the woman," he said, "maybe she can tell you."

Mrs. Clugston continues to moan and weep in her cell. She shows spirit, however, when the physician is mentioned in connection with the poisoning and asserts that Dr. Alverson is an honorable man.

For some time the physician is said to have sought the return of property he deeded to Mrs. Clugston. He first gave her his home in Prairie City, Ill., where the Clugstons maintained residence with him. Then they removed to Bushnell, Ill., where the tragedy occurred and where a house was obtained in exchange for the Prairie City home.

One night while riding thru Prairie City, the physician is said to have been seen with an arm about Mrs. Clugston's waist. Dr. Alverson, however has maintained that his interest in the Clugstons was of the fatherly sort.

IMPERIAL PALACE OF D. O. K. K. ELECTS
PEORIA, Ill., Aug. 13.—Harry W. Nice, prosecuting attorney of Baltimore, Md., was elected Imperial Prince of the Dramatic Order Knights of Khorassan here at the 14th biennial session of the Imperial Palace.

Nelson Putts, Reading, Pa., was elected as junior member to fill the vacancy in the Imperial Azim, and Dr. L. R. Snowden, of Peoria, retiring Imperial prince, became a past Imperial prince, and a life member of the order.

Other officers are as follows: Gus Meese, Spokane, Wash., Imperial basha; A. L. Frey, Columbus, O., Imperial kadi; Charles Stacey, Los Angeles, Imperial secretary; D. W. C. Varborough, Birmingham, Ala., Imperial treasurer; C. F. Welland, Dallas, Texas, Imperial sheik; A. W. Fossum, Aberdeen, S. D., Imperial adool; W. H. Duthie, Barre, Vt., Imperial ikfar, and Nelson Putts, Reading, Pa., Imperial azim.

Fort Worth, Texas, and Chattanooga, Tenn., are contenders for selection tomorrow as the 1920 convention city.

ASQUITH LAUNCHED 'PEACE FEELER' IN 1917
BERLIN, Aug. 12.—Tuesday—By the A. P.—H. H. Asquith who retired as British premier in December, 1918, launched a peace feeler in August, 1917, according to a letter written by Friedrich Perlen, president of the Stuttgart branch of the international women's league for peace and freedom to the Freiheit She quotes a letter she received that time that Jonker J. O. Long Van Beek En Donk, secretary of the Dutch Anti-Militarist league in which he informed her that Mr. Asquith had asked him to put the direct question to the German chancellor, saying that a "good answer would be of tremendous importance."

Appeal to Cut 'Red Tape.'
Asked today if he had any reports indicating sufficient food held in storage to affect prices materially if released, Mr. Palmer revealed that several governors had appealed to him to cut "red tape" in forcing on the market "amazing quantities" of foodstuffs now in storage. In some cases it was said the food has been held longer than permitted by state laws, but technicalities regarding

TAKE CANNED GOODS EGGS AND SUGAR

Fine Dealer \$500 for Retailing Sugar at 15 Cents

TAMPA, Fla., Aug. 13.—Foodstuffs held in storage by six Tampa wholesale concerns aggregating 326,000 tins of canned goods, 4,000 cases of eggs, with large quantities of sugar flour and other commodities, were seized today by agents of the department of justice. Notices of libel were served charging that the goods were being illegally held from market for the purpose of unreasonably increasing prices. The haul included 32,400 pounds of rice, 41,450 pounds of salt; about 30,000 pounds of sugar; 20,550 pounds of flour, and lesser quantities of other commodities.

Seize More Than Million Eggs.
Chattanooga, Tenn., Aug. 13.—Eighty-four thousand dozen eggs stored with the Atlantic Ice and Coal Corporation here for the account of Morris and Co., Chicago, were seized today by the U. S. district attorney. Seizure was made under libel proceedings in the federal court which charged that the eggs were unlawfully stored for the purpose of unreasonably increasing prices.

Convict Retail Grocer.
Washington, Aug. 13.—Important developments in the government's fight to reduce the high cost of living came today.

One of the most interesting was the announcement by Attorney General Palmer that the first federal conviction for profiteering had been obtained. District Attorney Lawrence L. Bingham, N. Y., that a retail grocer had been fined \$500 for selling sugar at 15 cents a pound.

"A few good cases of profiteering in each state will settle that trouble," Mr. Palmer remarked. In order to bring to book persons guilty of raising prices extortionately, or hoarding food, Mr. Palmer submitted to the agriculture committee the draft of an amendment to the food control act extending its provisions to clothing and containers of foods and foods and providing a penalty of \$5,000 fine or two years imprisonment or both for violation of the law. Chairman Hagen, of the house committee announced that the amendment would be considered immediately. Three cabinet officers asked special appropriations for the campaign against inflated prices. Secretary Redfield requested \$110,000 for the work of the bureau of standards in assuring full weight and of the bureau of fisheries in introducing new fish foods. Secretary Wilson asked for \$475,000 for the employment of special agents and others and Mr. Palmer requested \$1,000,000 for the bureau of investigation and for the expenses of the state food administrators.

Another \$200,000 was asked for anti-trust suits, especially that against the five big packing companies.

The attorney general also wants \$300,000 for other work of the department, such as enforcement of wartime prohibition, prosecution of appeals and hiring of special assistants.

Asked today if he had any reports indicating sufficient food held in storage to affect prices materially if released, Mr. Palmer revealed that several governors had appealed to him to cut "red tape" in forcing on the market "amazing quantities" of foodstuffs now in storage. There is a lot to be said on all sides of the railroad question and on the proper solution depends much of the industrial peace and prosperity of the country. The word "all" is used advisedly, for it is a question with more than two sides.

It may help some to know that high prices prevail all over the world. In France eggs are now selling at \$1.20 a dozen and butter at \$1.50 a pound. The wonder is how the peasants over

there, with meager earning power, are able to live at all.

The Jacksonville city council should be careful that city employees here do not hear of the recent action taken at Bloomington. There the pay of all employees was raised on an average from \$10 to \$12 per month. Probably Bloomington does not have a floating debt and does have sources of income which make it possible for it to meet its daily running expenses.

The situation in Jacksonville is also expected to improve in the course of the next few months.

The relief work that has been carried on in Serbia by the American Red Cross will be perpetuated by native women who are now being trained by the Red Cross workers in nursing and general health work and child welfare. The students show great eagerness and aptitude to learn and it is expected that within a few months there will be enough graduates in the field to undertake a comprehensive health program throughout the country.

Mr. Garretson, formerly at the head of one of the big railroad brotherhoods, made the interesting charge in his testimony that one reason for the poor showing made under government operation is the fact that the railroad officers earnestly desire to discredit the plan. The charge has been made before but Mr. Gar-

retson emphasized it in a new way, and declared that in the main the same men who had operated the railroads successfully and made them show earnings and surplus in the succeeding year, had charge of the actual operation during past months when the big deficit was accumulated.

New York has a plan of its own for meeting the house question and at the same time to put an end to the rent profiteering system which has recently annoyed people in all the larger cities. The New York plan is to promote home building by providing liberal terms for people who want to erect houses and live in them. This would take care of one class. Then the plan provides a low tax rate for those who build houses to rent, the idea being to insure the investor a reasonable return on his investment. In the big cities the increasing taxes on real estate have really made necessary some of the increases that the property owners have asked.

One thing hard to understand about the market effect of the continued work attacks on the high cost of living is the fact that in recent days hog prices have continued to ascend and grain prices have lowered. These opposite results seem to prove that it is going to take more than talk to reduce living costs. Some people have tried to prove that it was largely a matter of psychology, and that if the people talked enough about lower living costs that prices would begin to fall.

The liquor interests are evidently not going to perish from the business earth just because of the coming of prohibition. Many a brewery has already been turned into a soft drink establishment and now a big new factory is to be built in St. Louis for the manufacture of de-alcoholized wine. A lot of people have seemed to think that any drink with the alcohol minus had been robbed of all its "kick," but evidently the St. Louis business men have confidence in the popularity that their product will have.

Rippling Rhymes By Walt Mason

ENVIRONMENT. I hear men say, sometimes, "Great Scott! This is the village God forgot! There is no chance for me to rise, in this old burg of mossback guys." Then they go forth, upon a day, to fairer pastures far away; and there they find things just as bad as in their own abandoned grad. It cuts no ice where genius dwells; we'll always see it wearing bells. The man who has the goods may go to desert waste or arctic snow, and there hang out his modest sign, and he will find that trade is fine. Ours is a quiet dreamy town, but it would hold no fellow down. If some youth shows the proper fire, with wrench or hammer, brush or lyre, men drop their work for half a day, to help him upward on his way. With proper stuffing in your head, there isn't any town so dead that you can't cut a swath right there, and nineteen kinds of laurels wear. And in the dearest, grayest town a man may win a world renown. If you, fair reader, where you are, can't hitch your wagon to a star, you couldn't do the trick in Cork, in Boston, Joplin or New York.

RURAL CARRIER KILLED. LARGE SNAKE WEDNESDAY. J. A. Walters has been a rural mail carrier for many years and numerous snakes have crossed his pathway, but all records were broken yesterday. The wheels of his car ran over a bull snake fully six feet long. The reptile was stunned and Mr. Walters stopped the car and a heavy blow on the head finished the job that the car wheel started. Mr. Walters brought the snake to Jacksonville and turned it over to Truman P. Carter for mounting.

Judge Samuel Wednesday Heard Objections to Inheritance Tax Fixed in Estate of Philip J. Conboy—Ordered Revision of Report.

Before Judge Samuel Wednesday objections were heard on the inheritance tax previously fixed in the estate of Philip J. Conboy. The appraiser appointed in this estate was F. L. Gregory and on the basis of his report a tax of \$417.64 was assessed against Mrs. Conboy's share in the estate, and \$1,255.41 against Miss Mabel Conboy's share. Objections were filed by W. E. Thomson as attorney for the estate, and on the hearing yesterday Oscar J. Putting of Springfield appeared for the attorney general's office.

After hearing the evidence in the case Judge Samuel ordered a revision of the report, which will have the effect of slightly increasing the total amount of the tax. Objections are made to the report because a certain note for \$30,000 had been considered a part of the estate, whereas Miss Conboy claims that this note had been given to her by her father several years prior to his death. It was known as the Pettifohn note and was given to Miss Conboy in 1914, according to the evidence.

However, the evidence further showed that the interest on the note was collected each year by Mr. Conboy and the money became a part of his own bank account. At least this was the rule until January of 1919, when the interest money was paid to Miss Conboy.

It was shown in the evidence that unless the gift was actual and that Miss Conboy entered into possession of the note and the interest thereon became her personal property, that from an inheritance tax standpoint the money properly belonged to the estate.

Mr. Conboy died early in the present year and his estate is being administered upon with Mrs. Sarah Conboy as the administratrix. Her bond is \$250,000, the inventory showing that the deceased owned real estate to the value of \$7,000 and personal property to the value of \$160,000.

LOCAL MEN TO CAMP IN NORTHERN WOODS

William Baldwin and James Guyette Left Wednesday for Stay of Several Weeks in Northern Michigan.

William Baldwin and James Guyette left this city Wednesday afternoon for a camping trip in the northern part of Michigan. They are traveling by automobile and will go first to Peoria, where they will be present at sessions of the D. O. K. K. convention today. From Peoria the travelers will proceed to Chicago, stopping enroute at Starved Rock.

The vacationists carried with them from this city tent, cots and all needed paraphernalia for camping, and in Chicago they will purchase the needed provisions for their stay of several weeks in Michigan. They will not be at one place all the time, but intend to camp in different locations. They are anticipating a very pleasant outing in the northern woods.

THE CHAUTAUQUA

The Chautauqua management is busily engaged in completing the details of the eighth assembly which will open Friday, Aug. 22 and close Sunday, Aug. 31.

Present indications are that the 1919 Chautauqua will be the best and most largely attended yet held here. So far as is known at this time the program will be carried out just as printed. Reports coming from other assemblies concerning much of the talent booked are most flattering. The program this year includes a great variety of unusually good music, plenty of great entertainment numbers, and many orators and lecturers, most of them wits or humorists.

The program was arranged for a Victory Chautauqua with lots of music, fun, wit and humor, so as to let us forget the troubles of the past few years, mingle with our friends and be joyous. It is a well balanced, happy program as befits a Victory assembly.

Already most of the available camping places on the grounds have been reserved. The tents are expected soon so as to be raised in ample time.

The sale of subscribers' season tickets up to this time has been the greatest in the history of the Chautauqua. Last year and the years before the subscribers' tickets were exhausted several days before the assembly opened. This year many of the largest subscribers have already sold out their surplus supply of these tickets before opening day. Many people delay securing their tickets until the last minute. If they do not look out this year they will have to pay the regular admission rates. If you have not secured your season tickets, hunt up some subscriber who has them for sale and get them before it is too late.

RECEIVED WORD OF MOTHER'S DEATH

Robert Smith Receives Word of Death of Mother at Topeka, Kansas—Will Attend Funeral in That City.

Robert Smith of 749 South Church street received a telegram last night conveying news of the death of his mother, Mrs. Ellen Smith, which occurred at her home in Topeka, Kansas, Wednesday morning.

Deceased was 83 years old at the time of death. She had been in ill health for several months and her death was unexpected. Mr. Smith expects to leave today for Topeka to attend the funeral.

OLD JACKSONVILLE

OUR TREES

By Ensley Moore (Member Illinois State Historical Society)

It is no doubt difficult for our younger—not to say the youngest—people to realize that Jacksonville was laid out upon the open prairie—that is the part of it east of Park and Caldwell streets to the Chicago & Alton railroad, and south of Walnut street to the "Vandalia" or Waverly road. It is to be remembered that the "original town" was plotted with the "Public Square" as a center, and extending to the alley beyond West street on the west, to that beyond North street on the north East street on the east, and to that beyond College avenue on the south. Not a very large city. The present area of our city has been made by subsequent additions. Without much regard to proper planning and with a lack of alleys in suitable place. Thus some blocks are too long, and too deep, and the city irregular in arrangement. However, this place is different from most towns or cities in having no diagonal streets of any extent, if there is even one.

It may also be difficult for citizens of today to realize that there was heavy timber all around the city—east and north—on the course of the Mauwaister creek, and a fine grove on the north side of East State street, beyond Howe street. It will not seem as if Duncan's Grove had ever been so large as it was, or that College Grove had covered so much surface as it once did.

As to Trees. So far as the writer can judge the only trees anywhere near the center of the town which were here when the various platting were made, were cottonwoods, and they were scattering. There is a beautiful specimen of this sort near the northwest corner of the Congregational church, on that lot, which must have been "aboriginal."

There was also a clump of about five or six fine cottonwoods on the west side of South Main street, two or three blocks south of Michigan avenue (the city limits). These have nearly all been cut down.

Over on the north side of Walnut street, between Pine and Diamond, back in the field, is another group of great cottonwoods, which no doubt date far back of the coming of the white man.

Some years ago the writer was showing a lady visitor about the town and its environs, and, as she looked from Greenwood avenue northward, she asked:

"Why did you put your town in the woods?"

The reply was:

"We didn't. We put the woods in the town!"

This raises the question who did start the planting of trees

along our streets, and on the residence lots.

Gov. Joseph Duncan was the first tree planter apparently. For, in arranging the grounds of his "seat" as his homestead used to be termed, he had Thomas H. Cook, father of Jas. H. Cook, of South East street, get the sycamores (presumably from the "bottom" along the Illinois river) for the circling driveways up to the Duncan mansion, now Mrs. Kirby's home. This was done about 1836. According to Mr. I. E. Worfolk, his uncle, the well known Thos. P. Barber of East College avenue, planted those trees in 1836. Mr. Barber was then new from England, and was Gen. Duncan's gardener.

Gov. Duncan was, in many respects, one of the most valuable citizens Morgan county ever had. There used to be a row of locust trees, on the north side of the Mound road, from about Norbury's Sanitarium out to the John Leach farm, which were also set out by Gov. Duncan.

John W. Lathrop was a New Englander, who came here in 1830, and the writer has it in mind that Mr. Lathrop claimed to have suggested the planting of the trees in the old "Court yard," now called our Central Park.

Joseph W. King, the jeweler, father of Col. John W. King, who lived at the southwest corner of State street and Diamond Court, told the writer that he set out the trees in front of his place in 1849.

It is more than likely that the habit of putting out trees grew with the development of the town, and that, as streets were opened, or dwellings built the trees were set out.

Joseph Capps probably set out the trees on his frontage on North Church street, north of the Wabash railroad, and Edward Lambert likewise on North Prairie street—to make their pastures attractive to purchasers for city lots.

West North street, from Pine street, eastward, was opened in 1869, and some of the trees there were set out at that time by M. P. and A. E. Ayers, C. S. and M. C. Goltz, and others owning the lots abutting on that street. The writer and his wife put out the trees back of 856 West State street, on North street and LaFayette avenue in 1876.

"The Athens of the West."

Jacksonville is likely to have gotten its title above written not only from the literary and intellectual characteristics of the town, but also by reason of its being embowered so handsomely in elms and other trees, as the well known eastern college town was.

FORMER RESIDENT ADMITTED TO BAR

Norman Kuykendall, Formerly with Walter & A. F. Ayers Abstract Co. Here, Admitted to Oregon Bar—Began Study of Law with Judge E. P. Brockhouse.

Norman Kuykendall, formerly employed in the office of the Walter & A. F. Ayers Abstract Co., has recently passed the examination admitting him to the bar at Salem, Ore. This information has just been received in a letter from Mr. Kuykendall and his many local friends will be glad to know of his success.

Mr. Kuykendall has recently been residing at Portland, Ore., where he held the office of manager of the Lawyers Title & Trust Co., one of the largest abstract and trust companies on the western coast.

While a resident of this city Mr. Kuykendall began the study of law under Judge E. P. Brockhouse, and his interest was such that he made fine progress in his studies. Mr. Kuykendall held the position of secretary with the local abstract company and his services were highly valued by that company.

At the recent examination there were twenty-five applicants for admission to the Oregon bar, seventeen of the number making

the required grades. The formal order admitting the successful ones to the law profession was issued by the supreme court on July 29. It is not known here what Mr. Kuykendall's grades were but it is understood that there was but one other paper which could compare with his for excellence.

NO COUNTY BOYS AT STATE FAIR SCHOOL

County Supt. of Schools Vasconcellos Announces That no Morgan County Boys Will Attend State Fair School This Year.

County Superintendent of Schools Vasconcellos announced Wednesday that there will be no Morgan county students at the State Fair School for Boys this year. The county is entitled to send two boys to the school, and Supt. Vasconcellos had urged a number to attend. However, there were no boys who were willing to go and so the Morgan county reservations were given to another county in Illinois.

The present year is the first since the school was started that Morgan county has not had two representatives in attendance.

Woolens Show Steady Increase

When present stocks exhausted much higher prices must be paid on re-orders-- money saved by placing Suit orders now.

Men or women contemplating the purchase of tailored-to-order clothing will do well to give the matter immediate attention—prices of woolens continue to advance.

Mr. Renner, president of this company, returned from Chicago, where he went to purchase goods, Wednesday and found the market decidedly unsatisfactory. Wholesalers and jobbers are endeavoring to protect old customers on future deliveries, but at greatly increased prices. No new customers are being taken on by any of these firms.

So long as our present stock of woolens, for ladies' and gents' suits, lasts we will continue at the old prices. Therefore, we say it behoves you to make selections now.

NEGRO SOLDIERS MUST BE LED (John Richards in the Atlantic Monthly.)

The negro soldier is generally a splendid physical specimen, with great powers of endurance. He is tireless, cheerful and loyal, and will follow like a dog through artillery barrage and the wind of machine gun bullets. On the other hand, he has an extraordinary nervousness, does not like the dark, and lacks will and initiative. This last appears most clearly in the case of noncommissioned officers. Many will handle their men creditably behind the lines, while to an officer some of them are full of intelligent suggestions (too full, if encouraged). In hard conditions, however, the best of them, though showing no apparent fear, seem to be struck dumb. They do what they are told, but move as if bewildered. I think they lack the free, independent spirit that stirs in the breast of the white; that rises within him when the shells are falling thick and says, "I am a better man than any damn boche, and I am coming through. Of course, you find the same spirit in some negroes, but it is rare. They are boys. They do not grow up, even under shell fire.

If I were to join the army again I should like to serve with negro troops. They are so cheerful and willing and they march so well. They enjoy the theatrical effect of their drill. They are extremely good with animals. Have you ever seen eight black boys hustling a wary old mule up into a freight car? All eight are clustered round his stern, lifting, pushing, shouting, laughing, while the mule

U. S. COMMERCIAL
ACTIVITY CONTINUES

GENEVA, Aug. 13.—(By The Associated Press.)—American commercial activity in Europe, which began immediately after the signing of the armistice, con-

tinues successfully to advance on a large scale. The secret of the success of the Americans is their prompt delivery of goods, ranging from locomotives to sewing machines and the long credit given. The quickness of delivery exceeds even that of the Germans.

the interstate commerce had prevented governors from undertaking seizure.

Mr. Palmer ordered all district attorneys to assist the governors. Reports of excessive stocks of food held in storage have been received from six states the attorney general said. He declined to be more specific. Storage conditions are engaging the attention of the state food administrators, several of whom have asked if they were authorized to publish the facts where it appeared that more food was being held from the public than the reasonable requirements of a dealer.

"I told them to go right ahead and use the names," Mr. Palmer announced. The effect of the government's campaign was indicated in revision by the war department of prices to be charged for surplus army food. Reductions were made "to meet competition by retailers."

The cost of living continued to color much of the debate in congress today.

Republican Leader Mondell said he believed congress would adopt the president's suggestion and amend the food control act so as to make it apply to other necessities. He said there was some opposition to the attorney general's request that the treasury's secret service force be made available for the job of breaking up profiteering.

AMERICANS FIGHT
FIRE ON THE RHINE

COBLENZ, Tuesday, Aug. 12.—(By The Associated Press.)—Two hundred officers who recently graduated from the West Point military academy joined hands early today with hundreds of American doughboys and civilians in fighting a fire which threatened to destroy the Moravian colony at the Newfield headquarters of the First division.

The Americans fought the fire until daylight when it was brought under control.

The blaze was confined to one block. Several buildings devoted to the industries of the Moravians were destroyed.

twenty five armed men under the personal direction of Sheriff Hines. The deputy is reported to have fired nine shots before an answering volley was returned by the strikers.

At 7:45 o'clock three large trucks crowded with the strike-breakers thundered up to the gates of the plant and Sheriff Hines and his deputies dismounted.

The latter were armed with revolvers and the strikebreakers carried clubs and baseball bats. The trucks came to a full stop in front of the gates where obstructions had been piled by the strikers and the mob of more than 1,000 men and women surged forward.

While the obstructions were being removed, an unidentified woman threw a rock thru a window of an automobile in which Representative Charles W. LaPorte, counsel of the Keystone company was riding.

Quiet prevailed until 2:45 o'clock this afternoon when a woman passerby was wounded by a stray bullet from an alleged sniper, and no other disturbance was reported until the officials left the plant for their homes.

Firm for Open Shop.

The strike was called five weeks ago when the company refused recognition of the union of steel workers. Negotiations between the company officials and representatives of the unions have been in progress for many weeks. The company officials stood firm for an open shop, but maintained there would be no discrimination against men who joined the union. The company refused, however, to negotiate wage and working problems with the committee of the union.

The company offered an industrial representation plan to deal with matters of this nature. The members of the union refused to accept this plan when it was balloted upon some months ago.

The men remained at work pending further negotiations. At a subsequent ballot it was said by company officials that a majority of the men had voted to accept the plan with some minor amendments.

The principle of the open shop and the negotiation of wage scales and working conditions, however, were vested in the representative committees and not in the union.

During the negotiations members of the union alleged discrimination of union men by company officials.

At this stage the men delivered an ultimatum when the officials closed the plant until today when they decided to operate with strikebreakers.

At 11 o'clock it was reported there had been no firing in the last thirty minutes.

A crowd of a thousand men was still in the strike zone, but they were all orderly.

Strike leaders allege the firing on passing vehicles was the work of the strikebreakers.

The Keystone company plant is in darkness and it is said the strikebreakers are on the inside. Sheriff Hines arrived at union headquarters late this evening and told the strikers if they would agree to stop firing, and break their lines at the plant entrance, he would remove the strikebreakers.

Strike leaders say they agreed to the arrangement, but that instead of removing the strikebreakers, Sheriff Hines returned to his office in Peoria.

Orders to Move.

Danville, Ill., Aug. 13.—Captain Robert Dillon, Company A, Illinois national guard, received orders at 10:30 tonight to prepare immediately to entrain his command for Peoria and a few minutes later his men were gathering in their armory. He announced his company would be ready to entrain within two hours if transportation could be arranged.

MANHATTAN CAR
MEN GET RAISE

NEW YORK, Aug. 13.—The Interborough Rapid Transit company which operates the subway and elevated lines in the borough of Manhattan has granted a wage increase of ten per cent to its employees it was announced today.

The advance in pay was given at the request of interborough employees and it is expected to forestall any possibility of a strike similar to that which paralyzed the transportation in Brooklyn last week.

"WATCHFUL WAITING"
POLICY FOR SHOPMEN

Local Men Are Marking Time and Waiting, Like Macawber, for "Something to Turn Up"—No Change in Local Situation.

"Watchful waiting" seems to be the policy adopted by local shopmen in the strike situation. There is no change in the local situation and no prospect of an immediate return to work.

Tuesday evening shopmen from Springfield attended a meeting held in Labor Temple. These visitors said that any reports of Springfield men returning to work were false. The men are "standing pat." They pledged their support to the local men in their effort to get relief.

The regular meeting of the shopmen was held in the temple Wednesday afternoon. The men only reiterated their determination to stay out until something is done. The machinists held their regular monthly meeting at the temple Wednesday evening. While the strike situation was of course touched upon, it was only in an informal way, as the machinists are co-operating with the other crafts in the walkout.

While some of the men have returned to work at Roodhouse, most of the Alton men north of Jacksonville have returned to work. All of the men at Bloomington, Peoria, Joliet, Chicago and other northern points on the road are still out.

It seems to be generally understood so long as the Bloomington shopmen stay out the men here will remain out also. A local man working in the Bloomington shops said last night that unless the men here and in Bloomington were working together and that so long as one stayed out the other would also.

In the meantime the roads are operating as best they can. Passenger trains are kept running fairly well, tho for the most part behind schedule. An attempt also has been made to operate freight trains on the Alton, but only a few have been run. On the C. P. & St. L., the situation is the same, only the passenger train being in operation.

FIND GUARDS WEAR
ISSUE SHOES OFF DUTY

WASHINGTON, Aug. 13.—Because it was found that the men have been wearing shoes issued by the government at other times than when on duty only shoes with the fleshy side of the leather turned outward will be issued to national guard troops in the future or so long as the supply lasts, the war department announced today. The department had experienced considerable difficulty in keeping the guardsmen supplied with footwear which resulted in an investigation by inspectors.

POLES AND GERMANS
BEGIN NEGOTIATIONS

BERLIN, Monday, Aug. 11.—(By The A. P.)—Polish-German negotiations were begun here this afternoon. The proceedings opened with an address by Dr. Haniel von Haimhausen, a member of the German peace delegation who told the delegates that Germany though disappointed at the peace terms, intends to keep them to the letter.

The Polish premier assured the Germans that their countrymen would be fairly and justly treated in Poland.

PRODUCED MILES
OF WAR PICTURES

WASHINGTON, Aug. 13.—One hundred and sixty miles of motion picture negatives and more than 47,000 still pictures of army activities were produced during the war, Secretary Baker informed congress today in requesting passage of legislation authorizing the war department to sell duplicates of the negatives.

Mr. Baker recommended legislation to authorize the department to print in book form for sale to the public, photographs of the war. He estimated the pictures would make twelve volumes of 400 pages each and that the cost price would be \$1.50 a volume.

ATTEMPTS TO ROB
BANK; SHOTS SELF

KASHINGTON, Aug. 13.—A holdup man entering the banking room of the Munsey Trust Co., in the heart of the uptown business section today, pointed two pistols at a teller, demanding \$150 and then after firing one shot at a clerk, turned a pistol on himself. He shot himself in the jaw and was taken to a hospital.

The man told the police his name was John E. Fetzer, 34 years old, a mechanic of 116 East Street, Defiance, and that his uncle, Charles R. Fetzer, at the same address could tell "why he could not get ahead." He came here today from New York.

H. F. KING DIES

Chicago, Aug. 13.—Henry Frank King, an educator for more than 40 years, the last fifteen of which were spent in Chicago as principal of the Brentano school, died yesterday. He was born in Beaver Dam, Wis., in 1857 and was educated in Upper Iowa University and University of Chicago.

ANTHRACITE SHIPMENTS

Philadelphia, Aug. 13.—Shipments of anthracite for July as reported to the anthracite bureau of information aggregated 6,652,334 tons, an increase over June of 432,743 tons. Compared with July 1916, the latest normal year in anthracite production, the shipments last month showed an increase of 619,456 tons.

Social Events

Have Beef Steak Fry.

A party of young people enjoyed a very delightful outing Wednesday evening at a "beef steak fry." The party which included Misses Mary and Grace Alexander, Peggy Palmer, and Alice Bray and Robert Shoemaker, Ralph Shoemaker, Allen Smith and Worthington Adams, motored northwest of the city to the Gravel Springs neighborhood where the fires were built and the steaks fried. Other good things to eat were taken along and the meal proved delicious.

BENJ. EVANS FUNERAL WILL BE HELD TODAY

Pioneer Resident of Illinois Dies at Home in Winchester Tuesday—Other Items of Interest.

Winchester, Aug. 13.—Benjamin Franklin Evans passed away at his home in the west part of town Tuesday afternoon. He had been in failing health for several months.

He was born in Ohio in 1845, being 74 years of age. He came to Illinois with his parents at

the age of 7 years. At the age of 16 he enlisted in the union army for the civil war. After the close of the war he was united in marriage to Miss Lucy Brandy and to this union two children were born, one of whom precedes him in death. Mrs. Alice Beasley is still living. Mrs. Evans dying a few years after her marriage. In Nov. 25, 1882, Mr. Evans married Miss Malinda Harper. Besides the widow, the following children survive: Mrs. James Benton, Mrs. Martha Lovell, Mrs. William Hamlin, Mrs. James Hoots and Mrs. William Stite, Jr. Three sons preceded their father in death.

Mr. Evans has twenty grandchildren living. He was a kind father and a true friend. There will be many in this vicinity who will regret his passing as he had a host of friends here.

Funeral services will be held Thursday afternoon at 2 o'clock at Sandridge church in charge of Elder Henry Raines. Interment will be made at Young's cemetery.

PURCHASE LUMBER YARD AT ALEXANDER

W. A. Crawford of Jacksonville and W. C. Calhoun of Franklin Bay Property.

A business deal of some importance, which has been pending for several weeks, was consummated yesterday when W. A. Crawford of this city and W. C. Calhoun of Franklin became owners of the lumber yard at Alexander formerly owned by Fred Six and the Obermeyer estate.

The yard will be known as the Crawford and Calhoun Lumber company's property and will be managed by Lester Gray, a resident of Alexander.

The Alexander yard is excellently situated from a business standpoint, being located between New Berlin and this city, Franklin to the south being the closest point selling lumber. So that in the accession of the new firm to this property they have a large territory to draw upon for business.

Mr. Crawford is one of the prominent young business men of Jacksonville, thoroughly versed in the lumber business and with Mr. Calhoun's able assistance should make a success of the new enterprise at Alexander.

Funerals

Devine.

WHITE HALL LAND DEAL APPROXIMATES \$100,000

George North Disposes of Farms On Apple Creek Prairie.

White Hall, Aug. 13.—George North, the White Hall capitalist, president of the People's Bank here, has sold his two farms on Apple Creek prairie, two and one-half miles southwest of White Hall, for approximately \$100,000.

The western or lower farm, 161½ acres, was bought by Pearl McLamarrah of Iowa City, Iowa.

The other farm was bought by Americus and Claude Seely and Claude will make it his home.

The latter deal was made direct with Mr. North and exact figures are not available. The farm purchased by Mr. McLamarrah was sold thru Andrew Fry.

THE CARNEGIE LIBRARY

The death of Andrew Carnegie serves to call attention locally to the progress made in 16 years by the Jacksonville library, housed in a building he donated to the city of Jacksonville in 1901.

The building was not completed until 1903 when it was opened with a nucleus of 18,176 books. And from this number a collection of 24,654 has grown.

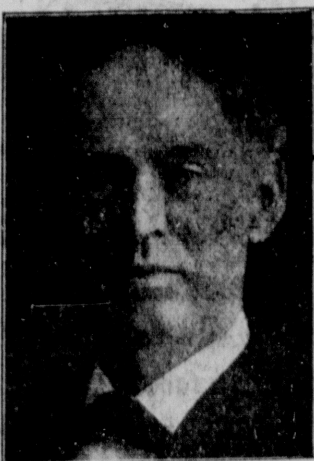

At the local library may be found a great assortment of modern fiction, and of the fiction classics of former years. But there also is on the library shelves a carefully selected collection of the more useful works on a wide range of scientific subjects, and thousands of volumes of the greatest educational value.

The library has made notable progress in a decade and a half. It is today one of the best libraries in the state, and from year to year its history has been marked by an increased utility to the people of Jacksonville and a rapidly widening sphere of influence as a great educational factor.

J. MERLE STEVENS

A Cure for Pessimism
If you are troubled with a pessimistic outlook upon the world, and would like to see the bright things instead of the dark, you ought to hear J. Merle Stevens. He will tell you how to get rid of the blues.

Mr. Stevens is a scholar, a writer, a preacher and a lecturer. Solid in character, quaint and Lincolnesque in speech, felicitous in anecdote, having always something to say, and a knowing how to say it, he is a man to hear. He strikes fire on civic issues, touches life with tenderness and humor and launches at times into periods of splendid eloquence. He has found the way to bring gladness and smiles to thousands and his addresses are so spiced with humor that there is not a dull moment on the way. When you have ridden for an hour on his train of thought, you feel that you have had a pleasant and profitable journey, and arrived on schedule time.

MARTIN FAMILY HELD REUNION

Descendants of Pioneer Family of County Held Annual Reunion at Nichols Park—Program of Addresses, Poems and Testimonials to Departed Members.

One of the honored families of this county and vicinity is that of the Martin name. The pioneers came here at an early date and their history has several times been given in the Journal. Death has made many inroads in the ranks of the family yet many descendants, children, grandchildren and great grandchildren, remain to honor the name.

The familiar faces of Mrs. J. H. Myers, John Martin, his brother who went to California, and many others are missed yet to the honor of those remaining he it said the family ties are still kept strong and the survivors are keeping green the memory of the pioneers here no more.

Each year there is a reunion and to it gather many of the clan, the honored one this year being Mrs. Kate Anderson, the oldest attending and a resident of New Holland. She was the oldest one present and was surely made welcome.

The merry-makers began gathering at Nichols park yesterday morning and in due season a large number had assembled. On every hand the best of feeling prevailed and many were the cordial greetings tendered each other in general and the older ones in particular. Some familiar faces were missed. George Swain was ill, Carl Weber, Myers Weber and brother were detained by business which took them out of town and several more were unavoidably kept away.

Of course dinner was a prominent number on the program and it was fully enjoyed by all present. Baskets piled up with the good things of life were unloaded from automobiles and the contents spread on tables and enjoyed to the full by all present.

After all had been fully satisfied a program followed which was much enjoyed. Addresses were made by Mrs. Kate Anderson, New Holland; Dr. Louis Dunavan of Chicago, Mrs. Lee Yeager and Albert Whitehead of St. Louis, Mrs. Mattie Bunn read a beautiful poem and testimonials were offered to the deceased during the year. Miss May Harrison, Thomas Pitner, Mrs. May McFarland, Harold Johnson, Harry Myers and Mrs. Lou Baldwin.

The program ended with the beautiful song: "God Be With You Till We Meet Again."

Election followed:
President—C. H. Martin.
Second president—Charles W. Martin.

First vice president—G. W. Martin.
Second vice president—George Thompson.

Third vice president—Spencer Self.
Secretary—Mrs. Mary Green.
Recording secretary—Mrs. Edith Bailey.

Primary department—Mrs. George Thompson, Mrs. Nellie Swain, Mrs. Lou Self, Mrs. Mollie Weber, Mrs. Clyde Martin, Mrs. Lou Martin.

Then came supper and adjournment.

Among those present were Mrs. Kate Anderson of New Holland, Mrs. Mattie Bunn of Bloomington, Dr. Louis Dunavan and wife of Chicago, William Logan of Oklahoma, Lee Yeager, Albert Whitehead of St. Louis; of this vicinity Eugene Caldwell and wife, Mrs. Addie Black, Dr. G. E. Baxter, wife and son; Herman Weber and wife, James and Dory Martin, Murray Martin, Charles W. Martin and wife, Charles M. Martin and wife, Merle Martin and wife, Miss Lou Martin, Miss Elizabeth Martin, Frank Green and wife, Mrs. George Swain, George Thompson and wife, Maurice Thompson, wife and three children, Mrs. Carl Weber and children, Mrs. Edgar Martin, Clyde Martin and wife, J. W. Martin and son, Carl Pitner, Mrs. William Davis, Dorothy and John, Mrs. Don Cowguy and daughter.

Were you ever disappointed with your Home-made Preserves?

Even the best recipe can't make allowances for the way sugar will harden into candy—or for the failure of a jelly to "jell".

Thousands of women are finding the ideal preserving syrup is a blend of ½ Karo (Red Label) with ½ sugar—instead of all sugar. Preserving done this way is always uniform—jelly that really "jells"—jam that is neither too syrupy nor too thick.

It gives you preserves with the natural fresh fruit flavor.

This fine, clear Karo Syrup has a natural affinity for the juices of the fruit. It blends the fruit with the sugar—makes your syrup rich and heavy, and holds jams and jellies firm and mellow, with not the slightest tendency to "candy" in the glass.

For Cooking, Baking and Candy Making Karo (Red Label) is used in millions of homes. In all cooking and baking recipes use Karo instead of sugar. It is sweet, of delicate flavor, and brings out the natural flavor of the food.

FREE A book of sixty-eight pages that gives you the best recipes for sure results in preserving. Easy to follow. The Corn Products Cook Book is handsomely illustrated—and it's free. Write us today for it.

TO CONTINUE M. E. CENTENARY MOVEMENT

National Training Conference for Continuation Program of Joint Methodist Centenary to be held in Chicago August 21-28.

Chicago, Aug. 13.—A national training conference for the continuation program of the Joint Methodist Centenary will be held August 21st to August 28th at Oakwood Park, Lake Waukegan, Indiana, according to a statement issued today by Dr. E. C. Hickman of Chicago, director of organization.

Bishops Thomas Nicholson, Chicago, and Herbert Welch, New York, Drs. D. D. Forsyth, Philadelphia, S. Earl Taylor, Edgar Blake, Frank Mason North, George M. Fowles and Fred B. Fisher, New York, Drs. John W. Hamaker and Eugene C. Hickman of Chicago, and others of the general staff of the Centenary, the secretaries of the nineteen areas of the Methodist Episcopal Church, and field secretaries will be present. The conservation program will be discussed by eminent leaders of the Church and special attention will be given to the fellowship of intercession, evangelism and the awakening and enrichment of the spiritual life of the church.

Prayer and plans will be made for a great evangelistic campaign for 1,000,000 converts. The stewardship league, life service movement, lay activities and other matters will be discussed at the training conferences which will be held each day, beginning at 10:00 a. m.

Dr. J. W. Hancher, Chicago, announced the enrollment of 450,000 persons who would make intercessory prayer each day, 193,210 enrolled as tithing stewards and 25,000 young men and women enrolled as candidates for life service.

ARKANSAS RESIDENTS END VISIT IN CITY

Mrs. C. B. Rhoades and Son Leave for Mattoon After Visit with Mr. and Mrs. William Johns.

Mrs. C. B. Rhoades and son Wilfred of Stuttgart, Ark., have completed a visit at the home of the former's parents, Mr. and Mrs. William Johns of 205 North Church street, and today will go to Mattoon for a visit at the home of Mrs. Lucille Holbridge. They will return to their home in Arkansas the latter part of the week. Mrs. Rhoades while in Illinois also visited with relatives at Jerseyville, Medora and at other points.

Mr. and Mrs. Rhoades have been residents of Stuttgart for the past eight years and Mr. Rhoades is the owner of the only steam laundry in that city. During their residence there they have seen the city grow from a small village to its present size. Many of the residents there are the owners of rice plantations, and these holdings have increased so much in value that their owners have become rich. Stuttgart is located in what is known as the Grand Prairie section of the state, lying between the White and Arkansas rivers.

Rice planting, which is a new enterprise in that section, has proven so profitable that there are now many northerners located there and they are rapidly building up great fortunes. Stuttgart is only a distance of 150 miles from Hot Springs and this fact is responsible for the many tourists which weekly visit the city. The roads in that section of Arkansas are excellent and the scenery very picturesque.

SIXTH ANNUAL REUNION HELD

Gibbs and Tankersly Families Held Event at Nichols Park—Large Number Present—Secretary's Report Proves of Interest.

Six years ago the honored families of Gibbs and Tankersly, largely of the vicinity of Winchester, White Hall and Morgan county, decided to have an annual reunion and they have continued the laudable custom up to the present time and this year the gathering was a great success and attended with an unusual amount of good cheer and fellowship. Automobiles from various places whirled into Nichols park yesterday morning and soon under the trees the members of the families gathered and began the good times of the day.

Greetings were numerous and hearty as one after another met those whom they had not seen for some time and all were devoted to making the occasion as happy as possible.

All the good things of life that could be put into generously sized baskets were produced and skilled ladies who had prepared the edibles spread them in tempting array making a feast fit for any epicure. It was indeed a trial to the Journal reporter that he was unable to eat with both the gatherings in the park but not having the convenient storage stomach of a camel he could eat but with one and as both were faultless there was no choice only the one first inviting.

After dinner there was a program with attention to business, some addresses and various pleasing features which occupied a good part of the afternoon after which the good and children were assembled, loaded into autos followed by the adults and a happy, well satisfied company rode out of the park to enjoy the retrospection of the event.

Secretary's Report.

PEORIA OFFICER FAILS TO APPEAR

Many Jacksonville World War Veterans Disappointed Wednesday.

Announcement made in the Jacksonville press a few days ago, on the authority of Capt. Bush of the U. S. field artillery that he would come to this city Wednesday from Peoria for the express purpose of seeing that local veterans of the world war were given the Victory buttons to which they are entitled disappointed a good many soldier boys of Jacksonville and vicinity yesterday.

Captain Bush failed to show and further than that no word was received from him to explain his absence here.

It would seem to a casual observer that if business affairs kept the captain in Peoria and prevented his coming to this city on the date advertised that he could have notified the papers here of such postponement so that the men of Jacksonville and Morgan county who are anxious to get their well deserved government insignia would have been apprised of this fact and would not have had to make unnecessary trips to the local recruiting station to find it out. Many of the lads who came to the army office on East State street yesterday came to the city from a number of miles in the country, making the trip expressly to see the well advertised Bush.

The captain is running true to army form, however, and the local boys will get their buttons when they get them.

ICE CREAM SOCIAL AT ARCADIA M. E. CHURCH

The ice cream social given by the Ladies' Aid society of the Arcadia M. E. church Wednesday evening was a most successful event. The social was given on the church lawn and was attended by people of the Arcadia and surrounding communities. While the women of the church had charge of the affair, there were many others who assisted and to whom much credit is due for the success of the undertaking.

Extensive improvements and repairs are to be made in the church building and it was to secure the necessary funds that the social was planned. The edict is to have a new roof and various other needed repairs.

Now It's Easy to Keep White Shoes White

THIS season brings an end to the problem of keeping white shoes really and actually white; pure, clean bright-white, too.

"Nova" is the preparation that does it—"Nova" is in solid form and is without a doubt the best preparation of its kind on the market.

Nova is not a mere pigment; it cleans the canvas fabric so that no discoloring can show thru, and no streaking is even possible.

If you want a perfect canvas white that will not rub off, go to your dealer at once and tell him you want Eagle Brand Nova and nothing but Eagle Brand Nova.

If you wish a liquid white, one that goes on quickly and

easily—one that has no superior, ask for Dainty White. Nothing like it in liquid form.

"The Mark of Quality."

We make a dressing for every shoe under this trade mark. All are of superior quality.

**Eagle Brand
NOVA**

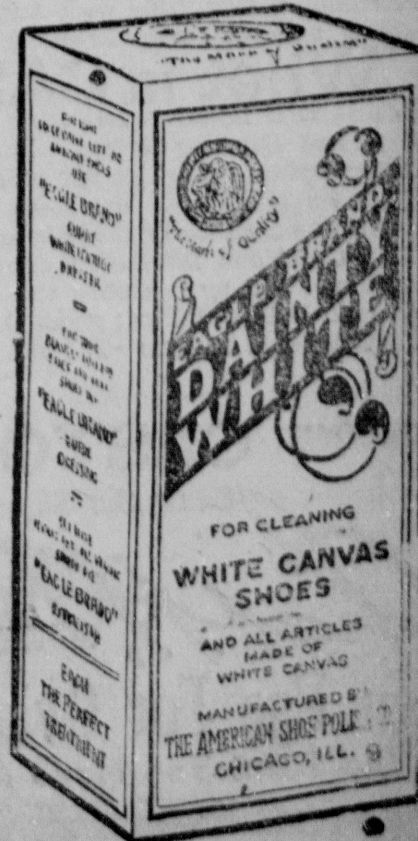

And above all, remember that there is no such thing as acid or acid-bleach of any kind in Nova or Dainty White. They are the canvas cleaners famous for their perfect, harmless, uniform, even color-covering or snowy-whiteness that cannot injure any fabric, no matter how dainty or delicate.

Buy Eagle Brand Paste for your fine black, brown russet or ox-blood shoes.

REDS TAKE TWO FROM GIANTS

Forty Thousand People See New York's Pennant Hopes Receive Crushing Blow—Cincinnati Six and One-Half Games Ahead.

New York, Aug. 13.—The pennant hopes of the New York Nationals received a crushing blow today when Cincinnati won both games of a double header and advanced its lead to six and a half games in the National League championship race. The Reds won the first game 4 to 3 and the second 2 to 1. The crowd that saw the two games has never been approached here before outside of world series games and it exceeded most of these. The crowd was estimated close to 40,000. The Giants fell before the skill of Cincinnati's two left handers, the youngster Ruether, and the veteran Sallee. Errors by the Giants lost the second game for Douglas and Cincinnati's two runs were made in the fourth inning on Giant errors.

CLOSES ACTIVE YEAR AT BLUFFS M. E. CHURCH

Rev. F. H. Lathrop, Pastor of Bluffs, Riggston and Exeter, Has Had Busy Year.

There were no services at Riggston church Sunday morning or at Bluffs M. E. church Sunday night, because of the absence of the pastor, Rev. F. H. Lathrop. The pastor had expected a representative of the Chaddock Boys School at Quincy to be present on these occasions, but the speaker failed to arrive.

There will be preaching service at 11 a. m., Sunday in the Riggston church and at 4 p. m., at the Exeter church. Sunday evening service at Bluffs church at eight o'clock.

Rev. Mr. Lathrop is just closing up a very successful year's work. He reports 22 accessions to the church as a result of the revival held last winter. He has preached 130 sermons and made approximately 400 calls, besides officiating at a number of funerals and attending various district and synods' meetings. There has also been a considerable sum raised for salary and for the Centenary movement. So it can be readily seen that Rev. Mr. Lathrop has been busy during the past twelve months.

ART CLUB WILL MEET

POWER LINE IS NEAR COMPLETION

The West Side Ladies Art Club will meet at the home of Mrs. Freeman on West Morgan street Friday afternoon. Business will be transacted.

AUTOS WANTED

We want to buy 1916, 1917 and 1918 Oaklands and Fords. J. F. Claus Motor Co., Oakland Garage.

Fred Bass of Pleasant Hill was transacting business in the city Wednesday.

POWER LINE IS NEAR COMPLETION

Workmen under the direction of George Stoldt, superintendent of the city light plant, have nearly completed the power line to the south end pumping station. The line has been run from the station to the pole at the corner of Broadway alley just back of the Modern Garage. Work has been held up temporarily because of a shipment of wire. With no unforeseen delays the line should be ready for operation in a week or ten days.

Charles Ator made a business trip to Springfield yesterday.

MAZOLA

The Perfect oil for cooking and salads

THE most discriminating epicure cannot say whether it is Mazola or imported olive oil in mayonnaise or French dressing served him. Italians who know real olive oil are enthusiastic about Mazola.

Your grocer sells Mazola at about one-half the price of the best olive oil.

Make This Delicious Mayonnaise Dressing Today

2 Eggs, Yolks only 1 pint of Mazola 1 teaspoon of Mustard
1 dash of Pepper 1 teaspoon of Salt 4 tablespoons of Vinegar

HAVE all ingredients and mixing utensils cold. Mix dry ingredients. Add egg yolks and when well mixed, add 1/2 teaspoon of vinegar. Add Mazola drop by drop until the mixture begins to thicken, beating slowly. As soon as the mixture thickens, add the remainder of the vinegar a little at a time. Now beat in the remainder of the Mazola gradually until all is used. The mayonnaise should be thick enough to hold its shape. Put in a glass jar and cover close. Place in the ice box to be used when needed. It will keep for weeks. Do not stir it when you open it; take out as much as you need with a tablespoon, and close the jar.

FREE Cooking made simple and economical when you consult the new 68-page Corn Products Cook Book. Attractive illustrations. A book you will keep. Free—write us today for it.

Protect Your Clothes

Against Dust, Smoke, Moth

A new and better Wardrobe Bag—the Protectall—for daily use and storage.

The Protectall really does what its name implies; *protects your clothes against dirt, dust, smoke and moth.*

Then too, the convenience of Protectall makes it perfectly adaptable for daily use. Simply slip your clothes in the big roomy side opening; then fold in the flap—it's simple and it's safe. For storage, double fold the edge, which makes it air-tight and moth proof.

Protectall Wardrobe Bags

For Daily Use and Storage

are made of tough fibre paper with cord re-inforced edges. Clothes are suspended from tape, on any ordinary hanger. The weight of the clothes is on the tape and the hook and not on the bag itself.

Will accommodate several garments and will keep them all clean, unwrinkled and ready for instant use.

Protectall Bags quickly pay for themselves in what they save.

You should by all means buy a Protectall. Made in three sizes for Dresses, Suits and Waists.

You Need Not Suffer from Catarrh

But You Must Drive it Out of Your Blood to Get Rid of It Permanently

You have probably been in the habit of applying external treatments, trying to cure your catarrh. You have used sprays, washes and lotions and possibly been temporarily relieved. But after a short time you had another attack and wondered why. You must realize that catarrh is an infection of the blood and to get permanent relief the catarrh infection must be driven out of the blood. The quicker you come to understand this, the quicker you will "drive it out of your system."

All reputable druggists carry S. S. S. in stock and we recommend you give it a trial immediately. The chief medical adviser of the company will cheerfully answer all letters on the subject. There is no charge for the medical advice. Address Swift Specific Company, 432 Swift Laboratory, Atlanta, Ga.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of

Charles H. Fletcher. It has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

SIMPLE HOME REMEDY ADVISED FOR ROSE AND HAY FEVER

Anyone Can Make a Pint for
Trifling Sum and Used in
Time May Prevent
Annual Attack.

"No matter how severe your yearly
attack be,
No matter how distressing or hu-
miliating—
Its intensity can be reduced to a
harmless, mildness,"

says a Kentucky druggist who be-
lieves from what he has seen that
this simple home remedy is
a most important discovery.

He has seen the most severe and
apparently unconquerable cases
reduced to what might be called a
mild cold in twenty-four hours.

In many cases where the patient
started treatment a week or ten
days before the expected attack
the unwelcome yearly visitor failed
to appear with anything like its
usual intensity.

People who want to try this new
treatment can make a pint in a
few minutes.

Pour one ounce of Mentholized
Archie into a pint bottle then fill
the bottle with water that has
been boiled. Gargle daily as di-
rected and sniff or spray the nos-
trils twice daily.

That's all there is to the treat-
ment which so many sufferers
have found to be a true friend.
Mentholized Archie in one ounce
vials is dispensed by all the better
pharmacies.

FASCINATING TEETH

How Every Woman Can Quick-
ly Charm Her Friends With
Lovely Teeth,
Clean, White and Brilliant

If you want the cleanest of
white teeth and healthy gums
free from disease, an easy and
quick way to get both is to use
a tooth paste so effective and per-
fect that astonishing results usu-
ally come in a week's time.

And the cost is so little. Just
go to any drug or department
store, and get a large tube of
SENRECO TOOTH PASTE for
35 cents.

Not only will it make your
teeth clean and white, but it will
at once remove any filmy coating,
help to check the ravages of
Pyorrhea and banish acidity in
the mouth.

It is used by thousands of
dentists and its sale has been re-
markable. When you visit your
dentist, which you should do at
least twice a year, ask him about
SENRECO. It's a most delightful
and refreshing tooth paste.

PRICE CHANGES IN CORN NARROWER

Notable Falling Off in Volume of
Dealings Form Principal
Feature of Market.

Chicago, Aug. 13.—Notable
falling off in the volume of deal-
ings formed the principal feature
of the corn market today, and was
generally ascribed to the uncer-
tainties attending the labor situa-
tion and the movement to curtail
the cost of living. Price changes
were narrower than usual. The
close was unsettled 3/4 net low-
er to 5/8 advance with Sept.
\$1.91 1/2 to \$1.91 3/4 and Dec.
\$1.52 1/4 to \$1.52 1/2. Oats finish-
ed 1c to 1 1/2c up and provisions
at declines of 20c to 42c.

Most of the trade in corn was
of a local character and in small
lots. The September delivery had
a moderate upward slant in price,
the greater part of the time owing
to the scantiness both of arrivals
and of the available stock here.

THRASHING NEAR END IN GREENE COUNTY

Marketing Facilities Much Handicapped By Railroad Strike—C. & A. Men at Roodhouse Return to Work—Other News Notes from Greene County.

White Hall, Aug. 12.—With the winter wheat thrashing coming to a close, marketing facilities have been very much handicapped during the past week by the railroad strike, which ended Sunday evening as far as this section is concerned, altho the Burlington road had the distinction of all its men remaining on duty. It was forecast in the White Hall letter last Friday that the C. & A. men at Roodhouse would probably return to work by Monday morning, and the men beat the prediction by twelve hours. For several days wagons loaded with wheat have been tured back from White Hall because of inability to handle more until the railroads relieved the congestion at the elevators.

Traffic on the C. & A. will be about normal by the middle of the week, and this will be a relief to the shippers of summer apples. For a week it has been necessary to haul the crop from the McClay orchards to the Burlington track at White Hall in order to effect movement, as the C. & A. was not able to move a thing. The summer apple harvest will continue until about the last of August and the ability to ship from Hillview from now on is a big relief to the growers.

The first wagon load of home-grown watermelons appeared last Thursday. The growing of watermelons in this section is confined to the Illinois River Valley country along the western edge

of the county, and is only sufficient to supply the local demand, none being shipped. Plowing for winter wheat began last week. Hard wheat is more and more finding favor among the farmers over the growing of soft wheat, and the acreage of hard wheat will be as large or larger than last season's sowing, and the total acreage of wheat sown will be about as much as last year.

Increasing Community of Interest Between White Hall-Roodhouse

A dozen or more White Hall laborers are at work on the new plant of the Federal Ice Refrigerating Co., at Roodhouse and also the new waterworks system to the Keller springs, which is designed to afford Roodhouse with an ample supply of pure spring water for all purposes. These White Hall laborers are transported back and forth each day in automobiles provided by the ice company. The interests between Roodhouse and White Hall are becoming more and more interwoven in both business and social ways, and the move to bring about the oiling of the road between the tri-cities is another step in the direction of bringing the two cities into closer relationship. The oiling proposition was undertaken by private enterprise under the leadership of C. R. Amos, residing midway between the two cities, and he has suspended his efforts temporarily, pending action by the county on representations of Supervisor W. V. Rhodes of White Hall. But the road will be oiled, whether the funds come from private or public sources, and there will not be much delay in getting at it.

Several regular employees in various departments of the C. & A. at Roodhouse are citizens of White Hall, the proximity to their work making it convenient to reside at White Hall. The new Schler residence on North Main street will be soon occupied by a machinist at the Roodhouse shops, who comes from Bloomington.

Chautauqua Opens Sunday.

Action is being directed this week toward a successful opening on Gregory Park next Sunday of the fourth annual White Hall Chautauqua. A lot of tenting that had been delayed in transit arrived Monday morning and this assures the main tent for the program and the large lists of campers' tent. Sunday's offerings include Brigadier General W. K. Naylor of Illinois, who will speak at 2:30, and 7:30 Dr. Roy L. Smith, Chicago's great preacher, will discuss "The High Cost of Low Living." Goforth's Orchestra will give concerts.

Carl Grossman's Orchestra will appear Monday and Tuesday. Monday evening Vincenzo De Santo, Italian statesman, will speak on the "Future Democracy of Italy." Vitall's Band, under the personal direction of Angelo Vitalli will be present Wednesday afternoon and evening. Thursday's program includes Madam VanLoon and her singing orchestra, and also Capt. Joe R. Hanley in two stirring addresses. The Philippine Orchestra will be Friday's attraction and in the evening there will also be a humorous entertainment by William Sterling Battis. Dr. Stanley L. Krebs will deliver two lectures Saturday and the Temple Choir will give concerts. Sunday night the attraction will be Ernest St. John, an eye witness of the upheaval in Russia, starting with the revolution, who will speak on "Russia and Bolshevism." The Ver-Harr Concert Co., will be present throughout the closing day.

Park Property Sold.

The buildings on the new addition to White Side Park were sold Saturday at public auction by Col. W. V. Rhodes, and the proceeds amounted to \$200.00 with a small building on the tract donated by Mrs. Zeno Stocks to be sold later. The N. H. Rose frame was bought by Maurice Allen at \$42.00; the Hand Island, H. O. Potts, \$69.00; the Ballard tile block, J. O. Raines \$78.00; the McCann blacksmith shop, W. L. Doyle, \$60.00; McCann agricultural implement structure, C. I. McCollister, \$530.00; ironclad shed to the east, Claude Seely, \$127.00. The receipts greatly exceeded expectations. Following the sale T. J. Grant, president of the park board, and Seth N. Griswold, the donor, went over the situation. The proceeds from the sale of the buildings will be devoted to the erection of a memorial arch at the northeast corner. The dirt from the excavation under the band stand will be used in various ways over the grounds. Messrs. Griswold and Grant formulated other plans of improving the grounds as soon as the old buildings are removed, which must be accomplished within thirty days, and these plans include a wide roadway north and south along the west line of the park and immediately in rear of the row of brick buildings that front on Main street.

White Hall Notes.

Herbert S. Foreman and Carlos Campbell arrived last week from overseas.

Miss Ida Kendall and Mrs. L. L. Seely are sojourning at Colorado Springs in company with the later's son, Kendall Seely.

A traffic line has been marked on Main street that assists considerably in regulating the increasing traffic.

Mrs. D. V. Winters and son Raymond are visiting in Nebraska and may go to Colorado before they return.

Harry Grant arrived home Saturday evening from his visit at Granddaddy Miss, and was accompanied by his little brother, Thomas, Jr.

Raymond Johnson came down from Peoria last week. W. P. and Arthur Neutzman spent Sunday with a brother in Chicago.

Dr. A. E. Meisenbach, of St. Louis, spent Sunday with his family who are sojourning here, and he and Mrs. Meisenbach gave two vocal duets in connection with the services in the Presbyterian church Sunday evening.

Miss Agnes Smith and Miss Ellen N. Clark of Wilmington, Delaware, are guests of H. T. and Miss Georgia Johnston, the former being a cousin. V. T. Winters has been quite ill for several days.

**Velie

Straight Line—High Cowl Body—Decidedly New Design Radiator and Hood—Sensational Velie-Continental Motor—Absolutely New Type—Burns Low Grade Fuel—Bevel Border Fenders—Octagonal Lamps—Every Detail Attractively Different—More Power—More Speed—No Vibration—No Noise—Costs Less to Run.

**Velie
Supreme**

A vision and its fulfillment—the ultimate in motors—Many superior features

Where others struggle to reach the ultimate goal Velie master-builders here announce the final result. The creative genius of foremost engineers is revealed in very detail of its make-up.

Here is authority in the new style—superior appointments—the 1920 realization of silent, supple power. Remove the name plate and you will know the New Velie anywhere—for what it does as well as what it is.

Velie experienced body-builders, with their keen vision, saw the ultimate body style. It is reflected in mirror-like plane surfaces of the new design, a design extending even into the shapely cowl and hood itself. Bevel border fenders, octagonal lamps and a

radiator distinctly different in outline show the modernity of detail in the new model.

The body itself is longer, with broad doors and more room in the deep-tilted seats. There is genuine comfort in the soft-plaited upholstery, and extensive storage places in seat back and doors.

A motor supreme—now available in the New Velie Six. A motor having an internally heated vaporizer vastly increasing the gasoline mileage and burning low grades of fuel.

A motor running smoothly and solidly at all speeds; its unusually large crankshaft held firmly by four bearings. A motor with rods and pistons accurately balanced, and enduring bronze-backed bearings ev-

erywhere.

A more powerful motor—power gained by larger valves, thorough combustion and a better co-ordination of working parts. And with it all, a velvety quietness that comes from capable design and superior workmanship.

The cost of operation is materially less—the efficiency greatly increased. This New Velie motor offers more improvements than the industry has created in a decade.

Every chassis feature is equally good—Improved Timken Axles and Bearings, Borg & Beck Clutch, Bijur Starting and Lighting, and so on through the entire car.
